

Meeting started at 4:10 p.m. Oct 11

Asked about revised requirement documentation.

Regarding the meeting with JPL, there is a good chance we might not meet on Thursday.

Fidel- GUI

Khang- Rendering, pop up window

Hieu - Simplify the mesh, Lmmp sample data, 3- 4 points per planet camera orientation

Angel- json format and spice

Shawn- work with Hieu to get fake data points

Chris- continue with the hadoop cluster

Did not meet with jpl team this week.
