How it Works : Image Storage

**Blob
Storage**

SQL DB

How it Works : Image Retrieval

Id	ImageID	CategoryID	FieldID	Value	CreatedAt
12345asd	asd_image2	Scenery	ImageOf	A Lake	2018-03-06

Image2

Category: A Permits

Field: ImageOf

Value: A Lake.

Field: Comments

Value: This is a picture of a beautiful scenery.

Android Studio

1. **Android Java**
2. **Provided a suite of tools to work on layout**
3. **Easy to manage tablet layout**
4. **Check Device Storage**
5. **Provides Emulation for Testing**

Visual Studio 2017

1. **C# Web Service**
2. **Used to design and host the Azure Backend Web Service**
3. **Uses an MVC approach**
4. **Instant Web Publishing**

Lessons Learned

1. **Learning New IDEs and Cloud Services**
2. **Establishing naming convention**
3. **Working as a team**

Future Potential Improvements

1. **Search by Tags Filter**
2. **Geolocation for Photos**
3. **Offline Caching**

Thank You!

Special Thanks to the
LA City Bureau of Engineering!
