# **KIPPLA KASTLE 2.0**

Team Members: Jose Gonzalez, Safa Al Mahbub, Juan Perez Faculty Advisor: Dr. Russ Abbott, Jungsoo (Sue) Lim Knowledge is Power Program Liaison: Kimberly and Nicole **Department of Computer Science** College of Engineering, Computer Science, and Technology California State University, Los Angeles

### Background

Kippla's website "KASTLE" is currently made with Google Sites, which had limited functionality. A major issue with our current setup is Google does not handle priority levels, as a result we have to maintain three separate website, and update them all at the consistently. Aside from this issue, our website needs to support Tableau Dashboards, have comments, and have a google sign in.

### Objective

To create a nice, easy to use website for KIPPLA. We will be using the Content Management System (CMS) Wordpress to create the websites, which will be hosted on SiteGround.

Goal

+\*+ +\*+ +++
