Power BI

BACKGROUND

The Auditor-Controller has access to a wealth of financial data. We developed a Power BI dashboard that allows executive managers to make critical decisions for the County.
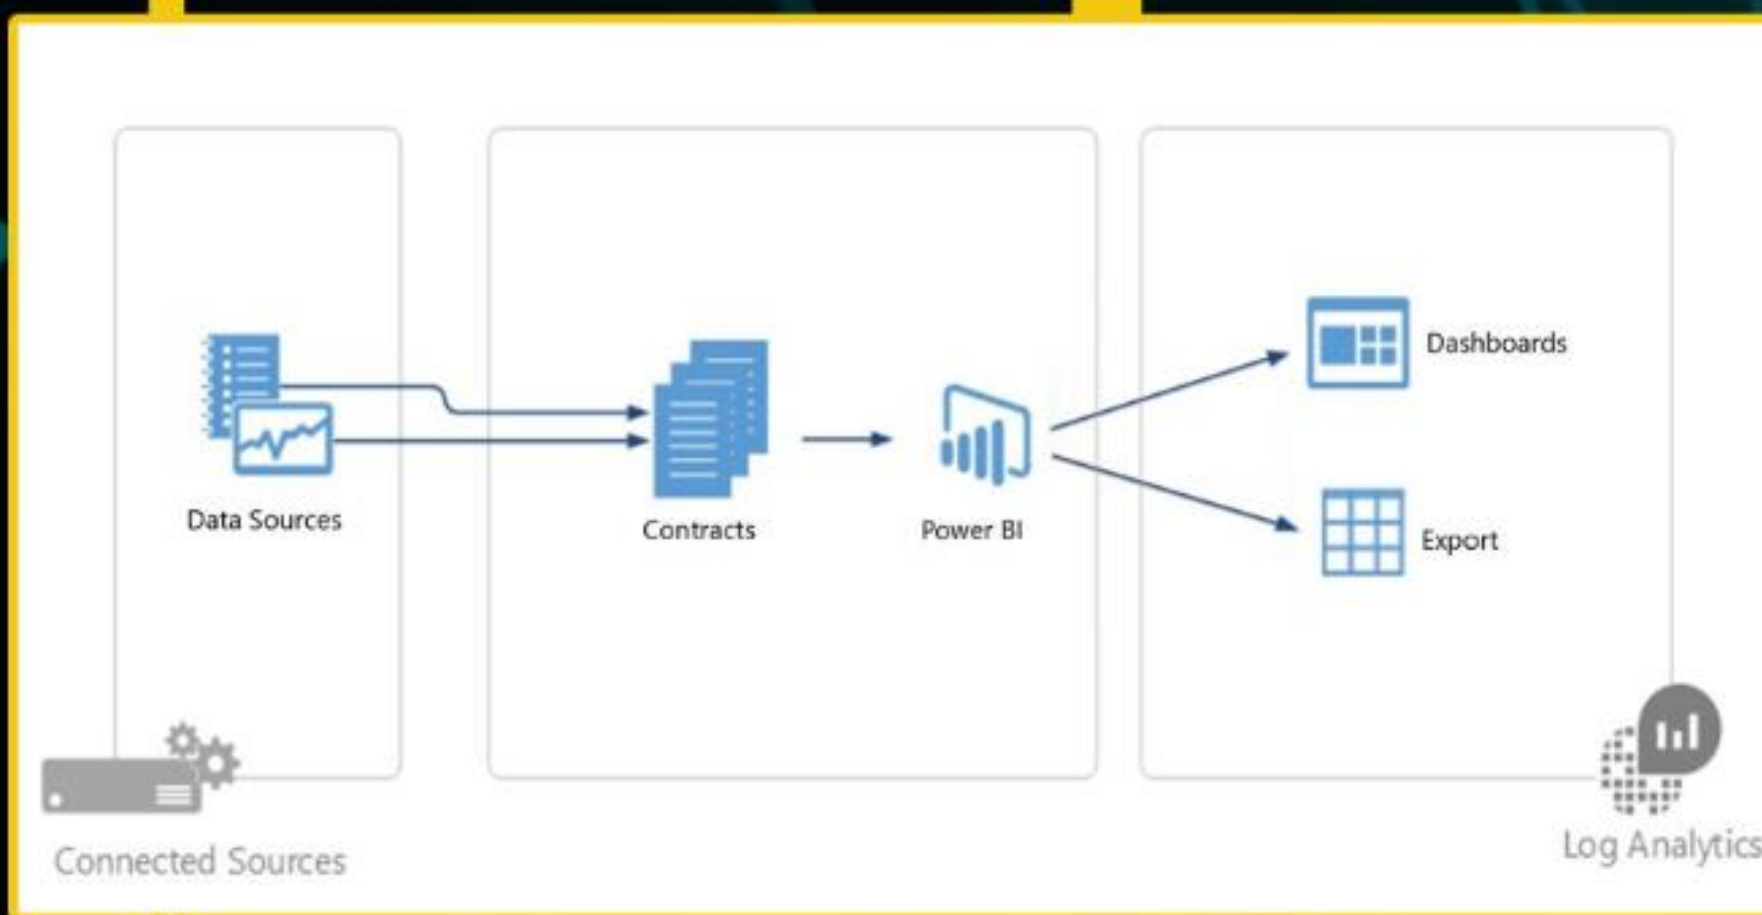

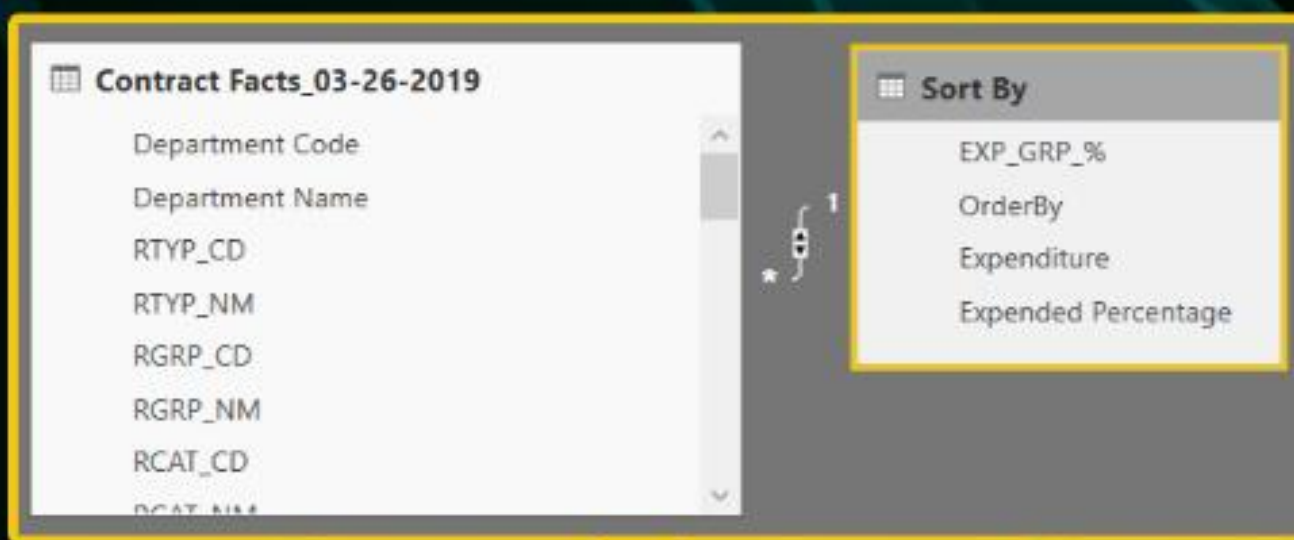

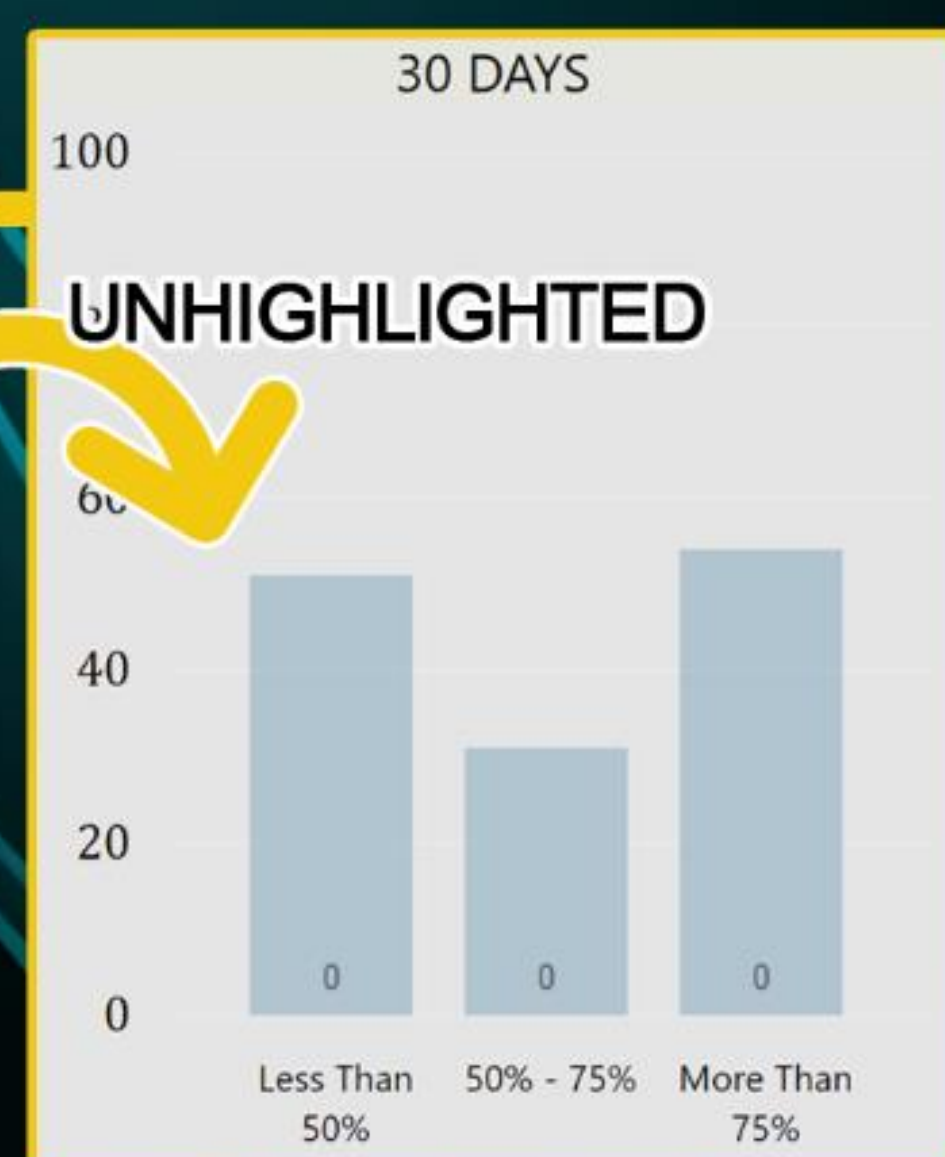

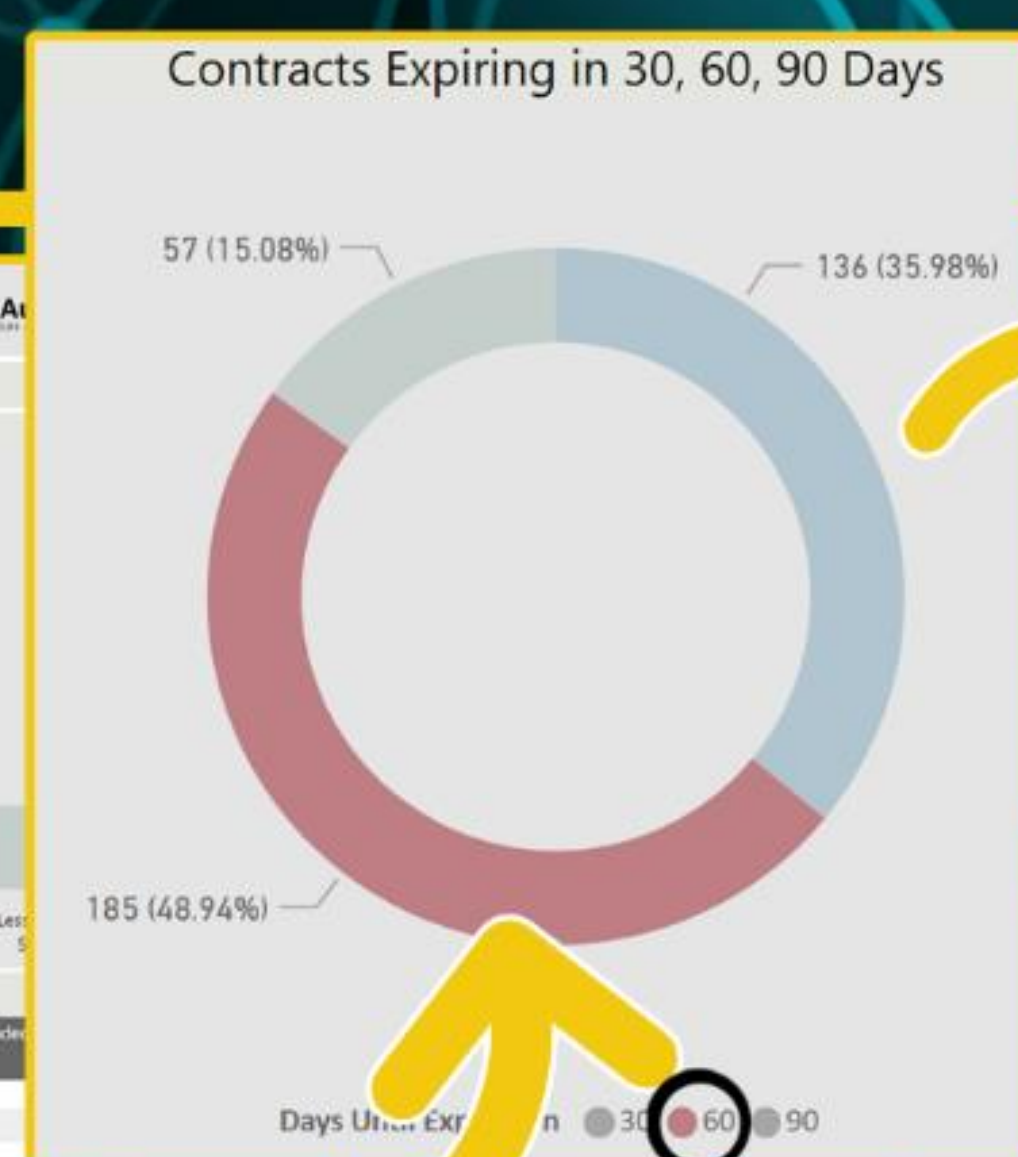

OBJECTIVE

The design of the dashboard was tailored to the needs of executives such as highlighting useful information and summarizing contract information across all county departments.

DELIVERABLES

RESULTS

UNHIGHLIGHTED

SELECTED 60

When 60 Days is selected all the other days become unhighlighted.

Table underneath displays deparments with only 60 Days.

CONCLUSION

Delivered a functional dashboard which met objectives described above.
