| et: -2.07632°, Lon: 140.99243° | Type your message | Send |

The user menu consists of multiple collaborative tools designed to help illustrate and communicate

3A. States: Allows user's to switch between saved features of a session. These features include data from drawings, shapes, and waypoints.

To create a new state click: State -> Add State -> Give the state a name -> Add State

To cancel the creation of a state click No Thanks.

Add State

Please input name for the new state initial state

No Thanks Add State

After a state is created any additional tools or waypoints created or edited will be saved to that specific state.

The user can switch between saved states by opening the States menu shown below.

| _{States} initial state | - | |
|------------------------------------|-------------------|-----------------|
| States | Change, create or | r delete states |
| initial state | | |
| test state | | |
| | | |

3B. Tools: tools is a set of creative tools that the users can pick from to annotate the display for the session.

Ц

The most left tool is the Multi-line tool. Upon selection the user can choose the color and width with the menu shown below.

| Color | |
|-------|--|
| | |

| Width — | |
|---------|--|
|---------|--|

| | K 🖍 🏜 | |

| | points Create, View Way | 00 |
| #1298e3 | Join a Chat Room | n |
| Hex | | |

Left click on the map to start a line and then move your mouse to another desired location and left click again to finalize one line.

the free pen. Upon selection the user can also adjust colors and The second tool is width. Hold left click on the map to continuously draw and let go of left click to stop drawing.

The third tool is shapes display tool. Upon selection the user can pick from 3 shapes, circle, rectangle or triangle from a menu like shown below.

Once selected the user can also adjust width and color of the shape.

To create the shape, left click and hold follow by dragging your mouse to create the desired shape size, release left click to finalize the shape.

3C. Room: The room feature will allow users to connect to a specific collaborative session or create a collaborative session.

| Room | Create/join a room | | |
|-------------|--------------------|--|--|
| | | | |
| Username | | | |
| | | | |
| Session ID: | | | |
| Create Room | Join room | | |

To create a room for others to connect to, click the "Create Room" button that will generate a session link that you can share with through emails, texts or any other form of text communication.

 $\mathbf{\wedge}$

To enter a collaborative session, click the "Join Room" button that will then display a username field and a session link field like shown below.

| Room | Create/join a room | ^ | Room | Create/join a room |
|--------------|--------------------|---|------------------------------|--------------------|
| Username | | | Username Tam | |
| Enter Room I | D | | Enter Room ID 124s-A23c-5 | 51Df |
| Join | | | Join | |

3D. Waypoints: waypoints will allow the user to create and display a certain landmark for the whole session to see.

To create a waypoint click the way point create button display below.

Afterwards, left click on the desired location to place the way point on the map, then a menu will pop up asking to name the waypoint.

| localhost:4200 says | | |
|----------------------------------|----|--------|
| Enter waypoint name: | | |
| This is where the rover landed ! | | |
| | | |
| | ОК | Cancel |
| | | |

3E. Participants: clicking the participants feature will visually display a list of other users' aliases in the current collaboration room.

| Participants | View all participants | ^ |
|-------------------------|-----------------------|---|
| Tommy Lay Tam Nyugen | | |
| | | |

3F. Chat: The chat feature allows all the connected users to interact with one another through texts.

Left click on the area displays "type your message" to type your text message and then click the send button to the left, as shown in the picture below.

| Type your message | | |
|-------------------|------|--|
| hello everyone! | Send | |
