

# THE CITY OF LOS ANGELES HAS A JOB FOR YOU

## EMERGENCY APPOINTMENT SYSTEMS ANALYST (Temporary Employment Opportunity)

Potential for permanent full time employment.

**Hourly Range: \$28.43 - \$35.33**

**DEPARTMENT:** Public Works, Bureau of Sanitation

**POSITION(S) AVAILABLE:** Emergency Systems Analyst positions are based at the Public Works Building, located at 1149 S. Broadway, Los Angeles 90015. However, some positions require travel to various locations throughout the City.

### **DUTIES AND RESPONSIBILITIES:**

A Systems Analyst analyzes procedures, methods and operations of computer-based information systems; designs, implements, and recommends local area network and wide area network information systems to improve the efficiency and economy of City operations; performs cost benefit and feasibility analyses related to the modification of existing computer-based information systems, the maintenance and support of information systems, or the implementation of new computer-based systems; and accesses information from automated files using high-level retrieval languages.

### **REQUIREMENTS:**

Graduation from a recognized four-year college or university with a major in Computer Science, Information Systems, or Geographical Information Systems.

### **METHOD OF EVALUATING CANDIDATES:**

Applications will be reviewed in order to identify candidates whose qualifications and experience are most closely related to the position's duties and responsibilities. Final selection will be based on an oral interview. Candidates will be interviewed for their skills, knowledge, abilities and personal qualifications. Present and former supervisors may be contacted as part of the selection process.

### **HOW TO APPLY:**

Interested candidates should send resume and contact info to:

RODNEY.BERNALDO@LACITY.ORG
