QA Analyst Trainee/Jr. Analyst

(Full-time position; openings in Lawndale, CA and Tustin, CA)

Full-time position available immediately

Who should apply?

- Recent graduates with a Computer Science/Engineering Degree or candidates with a science degree and hands on experience in tech sectors associated with QA (direct previous QA experience not required)
- Current QA Analysts/Testers looking to advance/acquire QA skill-set with a progressive, career-minded organization

As our QA Analyst Trainee/Tester, you will:

- Learn how to Automate Test Scripts
- Be responsible for the planning, execution, scheduling, and reporting of tests
- Be a part of the team in following QA testing best practices
- Identify and communicate risks
- Participate as a team member in testing, analysis, and process management
- Respond to dynamic situations while maintaining adherence to best practices
- Build alliances with developers, product owners and business users
- Create black, gray, and white box manual tests as appropriate
- Drive continuous improvement in test coverage and test effectiveness
- Lead bug scrubs
- Report to a Sr. Manager of quality assurance in the QA organization

To be considered you must have the following QUALIFICATIONS or be able to QUICKLY LEARN them:

- Passion for QA (as in, Assuring Quality)
- LAMP (Linux, Apache, MySQL, and Perl/PHP)
- Linux/Unix and web based experience a STRONG PLUS
- Highly collaborative
- Able to work well with developers, QA engineers, and non-engineering personnel
- Strong organizational skills
- Highly detail oriented
- Excellent teamwork and verbal/written communication skills
- Ability to work well in a fast-paced, dynamic, team environment
- Understanding or experience in web-based, n-tier software testing
- Understanding or experience with Testing/debugging web and client-server applications
- Understanding or experience with RDBMS systems such as Oracle, Sybase, and MySQL

Location: Lawndale, CA and Tustin, CA

Compensation: Approximately $29,000-$33,000/year
