

IAP HELP?

ECST HELP: QUARTER TO SEMESTER TRANSITION

Individualized Advisement Plan (IAP) Completion

- Cal State L.A. is converting from quarters to semesters.
- Our last term on the quarter-based calendar is Spring 2016 and our first term on the semester-based calendar is Fall 2016, with Fall semester classes beginning on Monday, August 22, 2016.
- To assist our students in the College of ECST with the completion of graduation requirements in a timely manner and to minimize confusion in the quarter to semester transition process, students will work closely with faculty and staff advisors to develop Individualized Advisement Plan (IAP) during group advising sessions known as “IAP Clinics.”
- The IAP is a great tool that provides students with a clear roadmap as to what courses to take in the current academic year (Quarter) as well as Fall 2016 or later (Semester) to meet graduation requirements.
- During the IAP Clinic, you will be able to get your IAP approved on the spot by an advisor.

To get a copy of the Fall 2015 IAP Clinic Schedule, RSVP to attend a clinic, and to learn how to best prepare for these sessions, go to the ECST Semester Conversion page at:
